Introduction

We human being are the mixture of SOUL and BODY that combined with the visible Body and the invisible Spirit.

In fact, the invisible Mental Health (MH) is much more important than the visible Body Health(BH) because the MH and BH not only are interact with each other with Synergy model, the MH actually can decide the human societal economy prosperity and the World Peace, However, the traditional Western Health Care Model System only focus on physical health. The Western MH is not a comprehensive MH science that should respect the MH much more crucial role than the Physical Health to decide the Health Care System performance by its key role on shaping the Political Regime and Political Policy, the Religion the Culture of our human societal values.

The Mental Health is the real crucial factor that decides our human being health and the World Peace. Moreover, the Children Mental Health (CMH) is the most crucial part of Human Being Mental Health (HBMH) because the Childhood is the most important stage of every people to shape a healthy life both in BH and MH. When we are born, we drink milk and eat food etc. visible food grow up our visible body to shape our visible figure. In the same time, we also learn knowledge and information etc. invisible food to feed our invisible brain to shape our values. All our life, we have to eat the visible food is serve our visible body's growth and we also have to learn the invisible food, the knowledge and information to meet our invisible soul's need to shape our mental world.

No people would like to feed their children with visible poison food because the visible poison food can cause the children's body death quickly. Therefore, the parent can see the worst consequence, so they don't feed poison food to their children. However, because the poison spirit food is invisible, and a dead soul that is poisoned by dangerous evil values and lies is also invisible; Moreover, not every poison food either it's visible or invisible can be identified easily; Furthermore, the school, the education system, the Medias, and the church are the key places to provide the invisible food to shape the children's and people's MH. Therefore, it's difficult or impossible for the parents to protect their children from the invisible poisoning spirit food injury.

Conclusion

Many totalitarian political powers, such as the Chinese communist Party (CCP), the radicalism religion groups, such as the Islamization, ISIS etc. organizations, all brain wash their countries' children with invisible poison food, lies and evil values etc. in order to make their children' to be their political regime slaves and victims.

The CCP and totalitarian religion groups not only destroy their children's future and kill these children's MH and beautiful soul with poison invisible food, but also make their children become the war criminal or the victims of a war or conflicts. However, the world has no yet notice this extremely important issue that related to billions of children's MH.
